GOOD ROADS BETTER COUNTRY

Highways Tell Tale of Profit or Loss and Spell Ruin for County That Neglects Them.

The plain people of the land are familiar with the truths of history. They know the past. They realize that often difference between good roads and bad roads is the difference between profit and loss. Good roads have a money value far beyond our ordinary conception. Bad roads constitute our greatest drawback to internal development and material progress. Good roads mean prosperous farmers; bad roads mean abandoned farms, sparsely settled country districts, and engorged populated cities, where the poor are destined to become poorer. Good roads mean more cultivated farms and cheaper food products for the toilers in the towns; bad roads mean poor transportation, lack of communication, high prices for the necessities of life, the loss of untold millions of wealth, and idle workmen seeking employment. Good roads will help those who cultivate the soil and feed the multitude, and whatever aids the producers of our country will increase our wealth and our greatness and benefit all the people. We cannot destroy our farms without final decay. They are today the heart of our national life and the chief source of our material greatness. Tear down every edifice in our cities and labor will rebuild them, but abandon the farms and our cities will disappear forever.

I take an abiding interest in this all-absorbing question for better highways by some plan it can be done honestly, economically and constitutionally. I am not committed to any pet scheme. I have no vanity in the matter. I care not who gets the glory so long as the people get the results.

I am for the cause and in the fight to stay. Good roads mean progress and prosperity, a benefit to the people who live in the cities, an advantage to the people who live in the country, and it will help every section of our vast domain. Good roads, like good streets, make habitation along them most desirable; they enhance the value of farm lands, facilitate transportation, and add untold wealth to the producers and consumers of the country; they are the milestones marking the advance of civilization; they economize time, give labor a lift, and make millions in money; they save wear and tear and worry and waste; they beautify the country and its cities with the city they

the industrial and the industrial progress of the people; they make better homes and happier hearthsides; they are the avenues of trade, the highways of commerce, and mail routes of information, and the agencies of speedy communication; they mean the economical transportation of marketable products—the maximum burden at the minimum cost; they are the ligaments that bind the country together in thrift and industry and intelligence and patriotism; they promote social intercourse, prevent intellectual stagnation and increase the happiness and the prosperity of our producing masses; they contribute to the glory of the country, give employment to our idle workmen, distribute the necessities of life—the products of the fields and the forests and the factories—encourage energy and husbandry, incite love for our scenic wonders and make mankind better and greater and grander and broader.

Good roads are the arteries of industrial life of a great and powerful people. Good roads make a good country. In a government such as ours all sorts of men and women are more or less absolutely dependent upon the best and speediest means of communication and transportation. If you say that good roads will only help the farmer, I deny it. The farmer who produces the necessities of life are less dependent than the millions and millions of people who live in our cities. The very lives of the latter depend on the farmers—the producers of the necessities of life. The most superficial investigation of this subject will clearly prove that good roads are more important to the consumers than they are to the producers of

goods.

He framed a law by which 400,000 persons were arrested on suspicion of being false to the revolution. Hundreds more were guillotined at his command. He even gravely expressed a wish to behead an entire French army of 270,000 officers and men.

With Robespierre and Danton (both of whom later fell victims to the guillotine) he formed a triumvirate to govern the French people. For a time he was the ruling spirit in this combination. In vain did his opponents call him "sever rat," and even less complimentary names. In vain did they plot for his downfall. By sheer force of evil he crushed all opposition. And the crazy mob slavishly followed his one virtue. By grafting, as did other revolutionary chiefs, he might have made millions of dollars. He died with just twenty-one cents.

Nature at last did what man could not, to shorten the career of this "star villain" of France's Scarlet Tragedy. Marat's health gave out. He suffered intolerable pain. The only relief he could get was to lie for hours in a tub of hot water. The great unwashed was actually forced to bathe!

It was while he was wrapped in a sheet in the steaming bathtub on the evening of July 13, 1793, that a young girl from the provinces called to see him. She said she had with her a list of traitors' names and began to read them to him. Marat listened greedily. At the end he croaked:

"They shall die! Every one of them!"

As he spoke, the girl—Charlotte Corday—stabbed him to the heart. She had hoped to free France from a tyrant. But she did more harm than good. In the first place, Marat had already been dying from disease, and at most could have had but a few weeks to live. In the second, she made the people regard a monster as a martyr. And, for months, the most atrocious cruelties were carried on, under the pretext that Marat would have wished them.

Instead of ending the Reign of Terror, Charlotte Corday had but increased its horrors. Here was a wasted crime.

There is said to be a woman somewhere who can actually sharpen a lead pencil so well that it doesn't look as if she had done it with her teeth.

Historic Blackguards

Marat—"Star Villain" of the French Revolution

RACE PROGRAM IS VERY STRONG

This Department of State Fair Under L. B. Shropshire Promises Big Interest.

THE SIX BIG STAKE EVENTS

Six Purse Events, Six Running Races, Gentlemen's Cup Race and Lady's Cup Race Among Star Features of Program.

From a racing standpoint, patrons of the Kentucky State Fair, the week of September 9-14, will be well provided for, as the program, which has been arranged by L. B. Shropshire, assistant secretary of the fair, is one of the best seen in Kentucky in years. He has arranged for six stake events for trotters and pacers, valued at \$600 each, and, in addition, he has provided for six running races, one for each day of the fair, and a Gentleman's Cup race and a Gentleman's Riding race, the last-named two to be decided the closing day of the fair. Among the stake races will be one for two-year-old trotters, one for three-year-old trotters, one for 2½-year-old trotters, 2½-year-old pacers and 2½-year-old pacers. The purse events will consist of one each for free-for-all trotters, 2½-year-old trotters, 2½-year-old pacers, 2½-year-old pacers and one for free-for-all pacers.

The revolution at that time had not wholly thrown sanity aside. Marat's arrest was ordered. He escaped and fled to the lowest slums.

There, hiding in the sewers and cellars, he and his time-making friends with the vile outcasts of the Paris underworld and in preaching to them his doctrine of wholesale murder. From

there he would emerge from

hiding with new plans for deeds of violence. Each time the saner leaders denounced him. But, soon or late, they followed his advice. And thus the revolution grew daily into the Reign of Terror.

At last it became safe for Marat to come wholly out of seclusion and to proclaim aloud, by voice and by his newspaper, his ideas for the death of his fellowmen. The revolutionary leaders feared and hated him. They held him in contempt for his squallid fifth and his shrieking clamor for blood. But they could no longer send him into hiding. For the worst element of the mob now ruled. Paris And the mob adored Marat. He grew in power and his most terrible orders were obeyed.

He framed a law by which 400,000 persons were arrested on suspicion of being false to the revolution. Hundreds more were guillotined at his command. He even gravely expressed a wish to behead an entire French army of 270,000 officers and men.

With Robespierre and Danton (both of whom later fell victims to the guillotine) he formed a triumvirate to govern the French people. For a time he was the ruling spirit in this combination.

In vain did his opponents call him "sever rat," and even less complimentary names. In vain did they plot for his downfall.

But, soon or late, they followed his advice. And thus the revolution grew daily into the Reign of Terror.

TERMS.

The subscription price of the paper is payable in advance, and when the time has arrived for which it is paid, the paper will be stopped.

Cards of thanks, obituaries, notices, etc., if timely sent, will be published gratis, free of charge of fee, no perine will be made for succeeding issues. No variation of this rule to anyone.

Free sample copies will be mailed.

Advertisements will be inserted. A rate card will be furnished on request.

Address all communications and make all remittances payable to **RECORD PRESS,** Greenville, Ky.

THURSDAY, AUGUST 15, 1912.

Entered at the Greenville, Ky., post office as second-class matter.

We care not who makes the platforms of the parties, but we hope to goodness some competent poet will write the campaign songs.

A ST. PAUL young woman has written a novel with her toes. Most modern novels read as though they had been written that way.

LET US REMARK in charity that perhaps some of the young women on the street never realized how unclothed they were until they saw it in the paper.

NOT ONE of the political platforms tells the plain people how to know whether a caudoupe is good without opening it. Politicians are an unpractical lot.

AS YOU WILL learn by reading the various party platforms and the speeches of the various candidates, the millennium will begin at noon on March 4, 1913.

ONE CHICAGO woman annexed a mail carrier's pouch of special delivery letters and refused to give them back. The suffrage movement will have to slow up in spots.

IN asking for \$135,000 to reimburse him for the expenses of his contest, ex Senator Lorimer shows that while he may have lost some things he is still in possession of his nerve.

IN THE BULL MOOSE platform the cow moose are granted almost everything they asked for. Perhaps they are sorry now that they didn't ask for an indoctrination of the hobble skirt.

SPEAKING of dictionaries, all of them are defective and behind the time. Search in the latest editions of the Standard, Webster's, International and the Century fails to reveal the term, "steam roller."

AUGUST 1st, the grand total of canal excavation was 173,269.815 cubic yards, leaving to be excavated 22,063.564 cubic yards. This means that more than one eighth of the entire amount necessary for the completed canal remains to be excavated.

IT seems to me that the time is ripe and overripe for a genuine progressive movement" says Mr. Roosevelt. The progressive movement, which has been up and coming these several years, is duly grateful for the recognition the colonel is conferring upon it.

PROFESSOR FOUCET of Paris has been studying the sweat of consumptives. He declares that it contains the germ of tuberculosis, and that the garments worn by consumptives show traces of the disease even after they have come back from the laundry. As a result of these disclosures, another French bacteriologist suggests that all public laundries should be compelled, by law to sterilize every garment by superheated steam, and that all laundry employees should wear rubber gloves.

THE ENGLISH newspapers print a report from Madrid to the effect that some ledgers discovered at Palos, Spain, contain interesting information on the cost of discovering America by Columbus. The sum total for which America was discovered amounted to \$7,000 or 38,000 pesetas. This was distributed as follows: 14,000 pesetas for armament; 2,000 pesetas for personal expenses of Columbus and his officers and crew; 22,000 for general expenses during the eight months for which the voyage lasted. The sum of \$7,000 in 1429 represented \$70,000 in 1912.

A Gala Day For Central City.

Allensville Baseball team will play the Central City team on next Saturday, August 17th, at Athletic Park in Central City. The game scheduled between Madisonville and Central City for the 17th, and 18th, will not be played, as the Madisonville team has been disbanded. Allensville has a good strong team and are playing good ball at present. It defeated the local team in last Friday on its home grounds. The Central City team will make a strong effort to return the compliment which it received at Allensville on last Friday. The Annual reunion of the Old Soldiers; Federal, Confederate and Spanish American, will be held in Central City on that day. A great crowd is expected.

At 9:30 in the morning of the 17th the Gun Club Shoot will take place at the Park. Several expert shooters will be here to take part in this exhibition.

All attractions are free except the Ball game, and the ladies are admitted free to this.

Let everybody come and have a good time.

Game called promptly at 2:45.

Mr. Wm. Eades, of Kuttawa, is spending a few days here.

Mr. J. S. Miller is spending the week in Dawson Springs.

Ricketty Children

Rickets attacks very young children, at the very time when their bones are growing most quickly. It interferes with the proper development of the whole bony structure, and if not treated in time causes permanent deformity. The ribs and the long bones of the arms and legs are most frequently affected, and protruding wrist and ankle bones, prominent ribs and the so-called pigeon breast are among the deformities that result.

The disease is easily recognized after it has become established; but in the beginning the diagnosis is not so simple. Before the bones begin to be affected the child shows other signs of failing health. It is feverish and restless, throws off the bedclothes at night, and screams if touched; and one very significant symptom is profuse perspiration, especially of the head, so that the pillow is always wet. A rickety child learns to walk very late, and teething is delayed. In some cases, children grow very thin; in others, they are fat, but the flesh is flabby.

Much can be done to prevent deformity by keeping the child very quiet. If it is allowed to creep about or stand, its bones will certainly become crooked, 'o' they are not strong enough to do the work demanded of them.

An attack of rickets may be so mild that only an instructed and watchful mother would notice it, or so severe that the child is left a misshapen dwarf. It is more common among the poor, because it is caused by insufficient or improper diet, and made worse by bad hygienic conditions and lack of care. When it occurs in a child of well-to-do parents, it can often be traced to the exclusive use of some patent food.

The first question in any case must be, "On what is the child being fed?" If a good wet nurse can be obtained, she will work the cure. If the child is already being fed at the breast by an overworked mother, or one who has nursed it too long, it must have a change to one properly diluted cow's milk.

A rickety child cannot have too much open air. If properly protected from damp and cold, it may be kept outdoors both day and night. The sensitiveness of the body may be relieved by warm baths and rubbing with oil. Any change in diet should, of course, be made under the advice of a physician.

Mr. John Wilkins, wife and children, of Lakesboro were here last Friday with relatives and friends.

School boys are counting the few remaining vacation days.

Coal haulers are beginning to get busy, and are securing contracts for the winter supply of fuel.

Victor machines, records and needles at Roark's.

There have been several delays in the winding up of the work at the new mill, but things are now progressing nicely, and it is hoped that the plant will soon be ready to receive wheat.

Kirkwood & Collins, the livery men of Central City, have inaugurated an automobile transfer line between their place and Greenville, arriving here at 7 a. m. and returning at 8. Other trips are being arranged, and the schedule will soon be fixed. The fare is \$1 in either direction, and will prove profitable and popular.

Read the notice to stockholders of the light and water company.

Mr. J. B. Tunstall is improving his residence on Cherry street by the addition of a commodious porch and other conveniences.

Mr. Harry Thomas, who has been spending the year in State College, has returned home.

We are informed that the tobacco pool will be closed Sept. 1, and those who desire to join have little time to lose.

Misses Mary Taylor and Louise Wickliffe have returned from a visit to relatives near Pembroke.

On account of the rain July 4 the annual reunion of old soldiers at Central City was postponed, and will occur next Saturday, when an elaborate program will be carried out, a barbecue dinner served, and a general good time had. It will draw a large crowd, and a good time is in prospect.

The Green-Marks Concrete Co. secured the contract for the bridge across Little Caney, at the foot of the town hill, and the work has been started. It will be some weeks before traffic can be resumed across the bridge, as about a month will be required for the bridge to season after it is completed.

Get mounts for calendars, mot-toes, etc. at this office.

Ross Martin Drops Dead.

Ross Martin a well known colored man, dropped dead about 4 o'clock last Saturday afternoon in the woods west of town. He was returning from a day's work in the mines, and had not complained of feeling ill. There were several persons present when Martin fell and his death was instantaneous. About a week before, Martin had a fainting spell at his home, but had apparently entirely recovered. An inquest was held, and a verdict of death from heart failure was returned. Interment was in Fairmount cemetery Sunday afternoon, and was witnessed by a large number of people.

Our own Ollie James declares that Teddy is not a bull moose, but a bull loose, and many people are with Ollie in that statement.

The last school examinations will be held here tomorrow and Saturday, and it is thought there will be several candidates.

The Grayson County fair is being held at Litchfield this week, and the attendance is reported heavy.

Rungling Bros.' Circus will spend the first week in September in Kentucky showing at Hopkinsville the 7th.

Mr. S. F. Driskill, of Paducah, has been here a few days on business matters.

Best one ever made—the Kirsch curtain rods; Roark has a large line.

A Great Presidential Campaign offer.

The most liberal we have ever made. The Record until January 1, 1913, and The Daily Evening Post until November 10, 1912 (count the time) for just 75 cents.

This is less than one half the regular price. The sooner you send in your order the more you will get for your money. Be sure to send in your order under this special rate today to THE RECORD, Greenville, Ky.

Notice to Stockholders.

The annual meeting of the Stockholders of the Greenville Light & Water Co. will be held at the Courthouse in Greenville Ky., on Sept. 7 1912, at 7:30 P. M.

J. A. Gilman
Secretary

It is now considerably further to the depot, as traffic is being detoured while the new bridge is being built.

There has been rather too much rain for tobacco, in many places, and it is feared that the weed has been damaged to some extent.

Misses Elsie and Dow Eades, of Birmingham, Ala., are spending a few days here with Mrs. J. W. Lam and other relatives.

There are several Muhlenberg boys in the Northwest doing farm work, and from letters to home folks and friends information is gathered that the crops through that section are uniformly fine.

With the thermometer ranging along in the 70's we are having the principal attractions of the mountain resorts.

The next regular meeting of Pond River lodge, held Saturday night, August 24, will no doubt be very largely attended, as this will be the last regular meeting before the report for the year is made, and at which members who have not heretofore paid will have opportunity to pay dues, so that they may be repaid.

A still born girl of Mr. and Mrs. Jubel Vincent was buried Sunday afternoon at the Vincent burial ground.

Mrs. Marshall Puryear and children, Edna Dean and Dorothy, of Paducah, are here on a visit to the family of Mr. J. W. Lam.

Mr. and Mrs. E. R. Gossett will return to Memphis this week, after a visit to Mr. and Mrs. V. H. Franklin here and other relatives in the county.

Only minor repairs have yet been made to the streets, but there is a vast amount of such work needed.

Midnight Fire Burns Storehouse

Fire discovered at midnight Monday in the store of W. A. Young, near the depot, quickly destroyed the building and an adjoining warehouse, together with the contents. The alarm was turned in promptly and the response made by the firefighters was prompt, but on account of the frame building and the nature of the contents, the fire had made such headway that the two streams of water had little effect on the flames, though all danger to adjacent property was removed. The origin of the fire is a mystery, the whole interior of the store being in flames when first seen. Mr. Young estimates his loss above \$10,000, and he is protected by insurance amounting to \$9,300 which covers him pretty well. This fire is the third that has occurred in business houses in that district within a year, and all have been total losses. Mr. Young is arranging to rebuild, and hopes to soon be ready to resume business at the same stand.

SPARKS FROM THE FIRE

The wildcat whistle quickly gathered a crowd.

Fire Chief Riley Dexter and his assistant Chas. W. Roark were right on the job from the jump, carrying out the two reels and aiding the men in the fight all the way through.

The number of girls and women present was fully up to the average in attendance and a great improvement in appearance.

The light and telephone people were sufferers to a considerable extent, wires and poles being destroyed, and the service interrupted.

The arc lights soon went out, and the town was in darkness.

The night crew at the Sweeny livery barn made lightning hitches, supplying two buggies for the hose reels in about a pair of minutes.

Adjoining property was never in danger, but that is all the good the fire department could do, as the building was too far gone to be saved.

What is worrying most people is that this is the first fire of a new series, and according to the rule that has obtained here for a score or more years, there are two more to follow.

This is the third business house that has been destroyed at the depot in less than a year, and there are only two remaining.

Fortunately the electric light wires were across the street, and so there was no danger from firemen coming in contact with live wires.

There were the usual number of people in town who heard of the fire for the first time the next morning.

The necessary time required in getting the hose carts to the fire emphasize the necessity of having a cart on the spot there.

It is thought the I. C. R. R. Co. would join in a plan to provide an additional hose and reel at the depot, and it is needed.

The warehouse adjoining the store was a most excellent example of the sheet steel covered building, again demonstrating it to be the most dangerous form of construction possible. It was impossible to get any water on the fire until the building collapsed.

There were no accidents and no one was injured.

Horse Killed By Lightning Sunday.

A horse belonging to Mrs. W. D. Oates was killed by a stroke of lightning about 9:30 o'clock last Sunday morning. The accident was a rather peculiar one, as the horse was standing under a tree in a lot near her home, and the tree was not struck or damaged in any way, the freak stroke reaching the horse in some way out of the usual.

Kill the Fly. Why? Because—

Flies breed in manure and other filth.

Flies walk and feed on excreta and sputa from people ill with typhoid fever, tuberculosis, diarrhoeal affections and many other diseases.

One fly can carry and may deposit on our food 6,000,000 bacteria.

One fly in one summer may produce normally 195,312,500,000,000 descendants.

A fly is an enemy to health—the health of our children, the health of our community!

A fly cannot develop from the egg in less than eight days; therefore, if we clean up everything thoroughly every week, and keep all manure screened, there need be no flies.

Will you help in the campaign against the pest?

Miss Dyer in Song Recital.

Miss Grace Dyer, a Kentucky woman who has been in New York for some years studying under leading teachers, and who is at present first soprano in the First Presbyterian church, at Buffalo, N. Y., gave a song recital at the Cumberland church Monday evening that was a real treat to an audience that should have been larger. The program was well balanced and varied in selected features, and her rendition was thoroughly satisfactory.

Every number was worthy of praise, but the "Villanelle," a perfect type of the Italian rustic song, was rendered with a brilliance that easily placed it at front of all numbers, as it showed a voice of entrancing range, flexibility and expression that has seldom been heard here.

"The Rosary" was given gloriously, and suffered none from being sung to her own accompaniment. Miss Dyer was ably assisted by her pianist, Mrs. M. L. Girton, who is a capable, sympathetic performer, and showed admirable talent in two solos which she gave.

A return date here would result in a largely increased audience, so favorable is the impression made by these artists.

Mrs. Phonso Martin Dies.

Cordie, wife of Mr. Phonso Martin, in her 35th year, died at their home near Nebo at 2 a. m. Monday, after an illness from tuberculosis that for many weeks had confined her to her home.

She was a woman of lovable character, and had a wide circle of friends. Funeral services were conducted at Green's Chapel at 2 o'clock Tuesday afternoon by Rev. J. C. Gary, and members of the Golden Cross participated in the burial ceremony.

The light and telephone people were sufferers to a considerable extent, wires and poles being destroyed, and the service interrupted.

The arc lights soon went out, and the town was in darkness.

The night crew at the Sweeny livery barn made lightning hitches, supplying two buggies for the hose reels in about a pair of minutes.

Fortunately the electric light wires were across the street, and so there was no danger from firemen coming in contact with live wires.

There were the usual number of people in town who heard of the fire for the first time the next morning.

TRIFLES THAT MEAN ECONOMY

May Appear Small, but in the Course of Time Will Be Found to Amount to Much.

The familiar Waldorf salad made of apples, celery and nuts takes on a new air if the ingredients are all shredded instead of being cut in dice shaped pieces or broken bits. If pistachio nuts are ground fine and sprinkled over the top the green addition will add to the lightness of the dish and the nuts themselves will improve the flavor. If red is wanted a few thin wedges of apple may retain their red skin.

Roast turkey left from dinner makes delicious salad, mixed with celery seasoned with capers and dressed with mayonnaise. The usual directions call for equal parts of meat and celery, but there is no hard and fast rule. The amount of the meat on hand and the taste of the family are strong considerations.

Tow towels sewed together on two sides and one end, the top turned over and a cord run through the casing near the top make an excellent soiled linen bag.

Potatoes which have contained olive oil are cleaned the most satisfactory with ammonia.

For a sick room two or three covers for dishes sent up on a tray are made of embroidery hoops with cheese cloth stretched tightly between them. Several squares of the cheese cloth in exactly the right size are a convenience. They should be hemmed.

GLAZED NUTS EASILY MADE

Winter Delicacy That is Popular With Both Old and Young and Not Costly.

A dainty for the winter table that may be prepared at home with little cost is glazed nuts. Various kinds of nuts may be glazed excepting peanuts, which are not especially good for that treatment, but none is better than Hickory nuts and butternuts.

Have the meats picked from the shells. Use granulated sugar with enough water to thoroughly dissolve it, stirring it as little as possible. When it splits a thread stir in the nuts and let them cook a very little, for if left too long on the stove the oils will be drawn from the nuts. Pour out on platters, spreading them thinly, and when cold they will be found to separate easily.

Nuts prepared this way are very nice mixed with homemade candy. About one-half cup of sugar is sufficient for one-half pint of nuts.

Oley Koeck.

Cream a pound of butter with one of sugar, whipping it light. Stir into it a quart of milk and a cupful of yeast with a quart of flour. Let it rise all night. In the morning add four eggs, well beaten, with two teaspoons of cinnamon, and the same of mace or nutmeg. Add, last, two cupfuls of flour, or enough to make the mixture as stiff as soft bread dough. Set to rise again. It should be light in three hours. Then roll into a sheet an inch thick and cut into shapes with thin cutters. Fry in deep fat.

As fast as they are done and of a rich golden brown, take up with a skimmer and lay to drain in a colander. Sift powdered sugar over them while they are hot.

Fish à la Orleans.

Any kind of large fish may be used. Season fish well and boil it until it can be pulled apart in small pieces. Put a layer of fish, then beets, pitted olives and capers in a mold, and continue thus until the mold is full. Soak a quarter of a box of gelatine in enough cold water to dissolve it, then pour the hot liquor, in which the fish has been boiled, on it until the gelatine is all dissolved, then pour as much liquor into the mold as it will take up over the layers of fish, beets, olives and capers; when cold take out of mold and serve on lettuce with a mayonnaise dressing.

Cabbage Tartare.

Select a handsome cabbage, carefully bend back the outer leaves, and hollow out center to form a basket. Let stand in cold water to crisp. Chop center of cabbage fine and let stand in salted water two hours. Drain well and add sauce tartare to moisten, made either with a mayonnaise or boiled dressing foundation. Return to basket, pour a little dressing over top and garnish with pinned to strips, olives and parsley.

Avoids Scorching.

Many housekeepers do not know that there is a simple way to prevent potatoes from burning and sticking to the bottom of the pot. An inverted pie pan placed in the bottom of the pot avoids scorching potatoes. The water and empty space beneath the pan save the potatoes. This also makes the work of cleaning pots easier, as no adhering parts of potatoes are left to be scrubbed out.—Popular Mechanics.

Pie-Baking Hint.

Any one troubled with the juice running out of their pies will make a small paper funnel and insert it in the center of the pie through the top crust into the filling. This will never lose the juice. Try this.

Carrot Preserves.

Boil the carrots until tender; peel and slice them, and to each pound add one pound of granulated sugar and one-half cupful of water; flavor with lemon. Simmer slowly until rich and thick, then seal.

To Head-Off a Headache

Nothing is Better than

Dr. Miles' Anti-Pain Pills

They Give Relief without Bad After-Effects.

For two years I was subject to almost constant headaches. At times so severe I was unfit for work. Through the advice of a friend I was persuaded to try Dr. Miles' Anti-Pain Pills, and the result has been that I have entirely eradicated my system of those continuous headaches that followed a hard and continuous mental strain.—O. L. Russell, Agt. C. & M. W. Ky., Early, La.
